Property Description

There is undoubtedly a lot to do here! A barn and old house for complete renovation. The last 2 pictures show though what could be achieved. They show the lovely old, stone buildings as they were around 15 years ago. Once all the work has been done, you could have 2 separate houses, or one large one. There is space for at least 5 bedrooms here. If you are looking for a "little project" this is worth looking at, because the position is superb. Set quite high with wonderful far reaching views over glorious, rolling countryside. The vibrant village of Plessala is only a 5 minute drive away, all amenities there and a very friendly atmosphere. A little further on will bring you to the medieval hilltop town of Moncontour. From there is only 30 minutes to Brittany's famous beaches, so everything is within easy reach. So, work to do, but once done you would have a lovely house in a superb setting, to your specifications. Must be worth a look? dont 16.67 % honoraires TTC à la charge de l'acquéreur.
