Property Description

Situated in the centre of one of the prettiest bastides in the South West of France, this large stone house of 308 m² dating from the 13th century is steeped in history and its current owners have transformed it into a guest house offering 5 spacious and luminous bedrooms, all equipped with a bathroom and reversible air conditioning. An independent and semi-detached apartment of 70 m² allows the owners to have their own private space. An attic of 80 m² is just waiting to be fitted out. A small flowered courtyard offers a private outside area. This lovely property could either be suitable for a tourist activity, very much in demand in this region, or would make a large family home with all amenities nearby.
