## Property Description

Situated at the end of a no through road, this property is the perfect get away from it all. Whether it be a permanent or a holiday home. The light and airy living accommodation leads out onto a large attached garden with terraced area and a further attached outbuilding, which would lend itself to a summer kitchen. The large attached barn is split off into 3 different areas and there is also a further attached stone outbuilding and a wood store. The field opposite is currently left as a wild flower meadow, with meandering pathways and a shaded seating area. However, the current owners have outline planning to install yurts. What are you waiting for ?
