Property Description

On the banks of a river with superb views this 18th century mansion is exceptional. Recently renovated with the classical high ceilings and spacious rooms of the period it is in truly excellent condition throughout. The main house with 5 bedrooms has in addition a completely self-contained luxurious chambre d'hôte with jacuzzi and shower. A watch tower provides a further chambre d'hôte similarly equipped but additionally including a sauna. The roof terrace - complete with daybed - provides panoramic views over river and countryside. Further development is possible - both in the lookout tower and also in a third building currently equipped with a kitchen and, on the first floor, just a shower and WC at present - but with scope for more accommodation.
