## Property Description

Conveniently located at the entrance of the Luberon, this stylish contemporary villa has benefited from a tasteful and complete remodel that has fully exploited the property's potential and capitalized on its fantastic views. This south-facing building enjoys a fabulous open-concept living space, that incorporates an American kitchen open on to the spacious sitting / dining room. A large pocket door lines the front, opening entirely out onto the terrace to create a seamless indoor-outdoor living space. A retractable awning provides much-needed shade for both the terrace and the living room. Raised above the houses below, the south-facing (main) terrace provides unobstructed views of Fontaine-de-Vaucluse, the Chateau and the mountains beyond. Outdoor lighting, the Jacuzzi and relaxed seating ensure this space is as welcoming night as it is day. There is a barbecue, dining area, and tool shed to the west of the house. The generous plot of land extends up above the house to the rear. The master suite incorporates a double bedroom with space for a home office, chic modern shower room and dressing room. A second suite is composed of a double bedroom and a bathroom - positioned to grant views onto the Chateau from the bathtub. The complete contemporary remodel included all-new windows throughout, anti-intrusion double-glazing, new kitchen, air-conditioning units, travertine flooring, and a 2.4 x 2.4 Jacuzzi. The property also boasts a secure 1-car garage and two additional private parking spaces out front. An extension could be created if desired and the land above the house could accommodate a swimming pool or an outbuilding, adding an attractive potential to an already fabulous village property.
