Property Description

This detached pretty village home has very recently been renovated including a new kitchen, new bathroom/shower rooms, beautifully decorated throughout, a new pellet burner, new solar hot water system, electrics updated, etc. Quite simply a stunning home.

This home is comprised of a hallway leading off to a very spacious sitting room (with a new pellet burner) with views over the front garden. To the left of the hallway there is a dining room (with an open fireplace) also with views of the garden and then off the rear is a light country kitchen with and an island. To the rear of the property is another sitting room which would also make a superb downstairs bedroom with scope for installing an ensuite in the adjacent storage room. In addition there is a utility room and a wc.

The first floor to the rear of the property is served by a spacious master suite with a superb bathroom/WC and a large dressing room. In addition, to the front of the property there is two further light and spacious beautifully decorated double bedrooms (one with an ensuite shower room) and then on the landing is a separate wc.

The property is accessed through the gated driveway which leads onto an area offering plenty of off-street parking. The very pretty garden goes from the front round the side and to the rear where there is a large garage and a log store

The property is located in a peaceful village just a few minutes from the pretty market town of Ruffec. Ruffec is only 7 minutes away which has local supermarkets, schools, restaurants, shops, a trains station and there are two airports within approximately 50 minutes. Great location.
