Property Description

This town center house is not lacking in assets! It consists of a completely renovated first floor with bedroom, mezzanine, kitchen, living room and bathroom. From the living room, a balcony provides access to the tree-lined courtyard and to enjoy sunny days.

On the ground floor, there is a plateau to renovate composed of a garage part of 40m² and a "studio" part to be renovated, which will be a perfect solution for rental, once the work is finished.

The house is located in the town center of Salies-de-Béarn, a spa town halfway between the Basque coast and the mountains.
